JANE RUSSELL'S MAID

One night Jane went out on a date. When she got home she was waving a beautiful fur coat. Her maid asked her where she got it. She replied, Oh I met a man with a thousand dollars. Next night being the maid's night off, she came in with a fur coat just like James. Jane asked her where she got it. She replied, Oh, I met a thousand man with a dollar a piece.

RASTUS

Once upon a time Rastus was fucking Lisa, on the railroad track when along came the train. The engineer blew his whistle, But Rastus would not move. So the engineer got out of the cab and asked Rastus, "Why in hell didn't you get out of the way." Rastus replied, "Well You was a coming. I was coming, and Lisa was coming, and you is the only one that got brakes."

THE CASE OF RASTUS AND LISA

When the case opened the judge asked Lisa, if she had shot Rastus in self defence, Lisa replied, I don't know what you call it Mister Judge. But I shot him in the ass as he went over the fence. Judge replied, case dismissed.

* USED IN
"FRANKIE"

In a young stenographer,
My age is sweet sixteen;
Ill tell you frankly,
Of the things I done and seen.

Along my laced and trimmed panties,
His curvin' finger stole,
His slowly spread my legs apart,
To help him reach his goal.

My first job was in a garden,
I was so greatly pleased,
I quit the next day, B
Because my titties were squeezed.
Next I tried a preacher,
He was a little rut.
For he spent his time flirting,
And patting me on the but.

In about a second, H
He found my pussy there,
I felt his finger working,
Thru, the lock of my curly hair.

I saw an advertisement,
For a confidential clerk.
I found a pleasant bachelor,
Who promised work.

H. Fucked with such passion
And I wiggled with an alk,
And soft against my curvy ass
His balls I could feel.

When I came on Monday morning,
I knew where I was at,
Cause we got down to business,
After I had hung my hat.

My little soft white titties,
He petted, squeezed and shook,
While the tender nipple of my right
Between his lips he took.

He sat down on a sofa,
And said, Ill use you right,
He pulled me down on his lap,
He kissed and hugged me tight.

We both stood there stark naked
Like two little babes just born,
His prick was big and husky,
Just like an ear of corn.

He pulled my skirt up gently
Above my shapely knees,
And the scarlet of my garters,
He could read and plainly see.

He made me rub it gently W
Which made it bigger still,
When he pressed it to my belly,
It gave me an awful thrill.

Well I hope you enjoy it is poetry,
And let this teach you a thing or two
For every time you meet,
Just ask him for a screw.....

"RUM AND COCA COLA" (TIENTEE STYLE)

Marines they come to China land
See many things they don't understand
Chinese tink it not discreet
To pull down pants and shit on street

Chinese whores wear little black shoes
Smoke our butts and drink our booze
They've got no cherry but there's no sin
'Cause they've got the box that it came in

Marines get rocks off every night
Three thousand dollars bring great delight
Drink lots of Vodka, eat lots of crap
Wake up next morning with dose of clap

Tientseu railroads ride in style
Fourteen hours to go one mile
Chinese think that fast indeed
Blow up tracks to deduce the speed

Chinese salesman sell many things
Pistols, sabers, watches and rings
No catch marine to make big sale
Got to eat chow out of garbage pail

Chinese whores are worlds very best
With there little snatch that runs east and west
Marines don't care for strange things now
Just pull down pants and yell DING HAOW,

These Chinese twats they have no hair
It looks very strange but MARINES don't care
They pull out dick and slap it in
And find there's room for ten more men.

Tits are something they no have
And there twats they need no salve
To sum it up, its piss poor bad
And MARINES they pray for STATE SIDE BASE

This is the story of China land
Of Clap, Of syph, of filth and sand
Of Chinese whores house run like stores

HAWAIIAN PASSION

I was born in a Hawaiian village and live there till my 18th birthday, as a gift by dad gave me a large dog, we got to be the best of friends and he followed men around and slept with me, at this time I was entering my woman hood, and was beginning to feel my sex, in plain words I was getting sexy. One night my folks went to visit some friends and were to be gone all night, I was burning up with passion and determined to find some way to relieve my sexual desires. That night while undressing I saw my dog sett near me with a half hard on, and thinking he could offer a solution to me desire I called him and taking his cock in my hand and gave it a quick rub. He became quite excited and started smelling my legs, He soon stuck his nose in my cunt and started smelling it, I tried to stop him but he just kept on.

Hot love juice ran down my legs, I tried to wipe it off, but he got his paws around my waist and started to work his ass up and down, against my leg, every time he would give a shove a stream of cold cream would run down my leg. He got me so excited that I got down on my hands and knees, and he jumped on my back and put his paws around my waist, the head of his cock kept slipping in my ass so I guided it right in my cunt, his action became more rapid and every time he shoved I could feel his damn cock going deeper and deeper, I felt his hot stuff gushing into me filling me with a spreading joy and caused my love nest to open like a flower in bloom, my love juice came till I thought I would die with joy, He jumped down and ran away, but I called him back and played with it till it was hard and ready for more action.

One day in June I met a man while at the beach, and we became good friends, swimming together and enjoying each others company. We had been coasted a short time when he picked me up and got me on his lap and began kissing me, at first I didn't want him to but he had such passionate love to me, I began to like it and put his hands on my titties and squeezed them gently, he opened my blouse and kissed them and started to bit them, this made me so hot my love nest started to move and throb, he put his lips to mine and took my dress off, I opened his pants and his large cock sprang in view. I opened my legs wide apart and he put his cock in the lips of my pussy and with his arms around me he gave a shove and I felt my cunt stretch apart as it was too small for his cock, and soon I felt his love juice come to meet my flow.

The next day he came in a car, we went to the country and I told my folks that I was going to spend the night with my girl friend, we had got to his place and striped and got in to bed, his cock was already hard and he started to play with me. He soon had me almost had me coming, and then he put his head between my legs and his lips against my pussy just as my juice flowed and he opened his mouth and with his tongue, he got every drop of it. I then reached down and took his cock in my hand and started to rub it up and down, I got the desire to taste his juice, taking his cock in my mouth,

I began to suck it and it seemed to get bigger, soon it began to throb and he shot his load down my throat I swallowed it all I had to I could hear it, because it was half way down already, After that we sucked each other off untill the love juice flowed, and finally we went to bed very well satisfied.

WOLVES

If he parks his little flivver
Down beside the moonlite river
And you feel him all a quivver
BABY, he's a wolf.

If he says your gorgeous looking
And your eyes set him a cooking
But your eyes aren't where he's a looking
BABY, he's a wolf.

If he says your an eyeful
And his heart pumps like a rifle
And his hands begin to trifle
BABY, he's a wolf.

If his arms are strong as now
And he stirs the gypsy in you
And you want him close agin you
BABY, he's a wolf.

If she throws her a quivver
In the front seat of your flivver
And says its pleasant on the river
BROTHER, she's a wolf.

If the get-up she is wearing
Turns your head and starts you staring
Cause the lengths a trifle daring
BROTHER, she's a wolf.

When at last she stirs your passion
And she thinks it's all a fashion
Cause on her kisses there's no ration
BROTHER, she's a wolf.

TADPOLE

I have been lashed by the tongue of a woman
Whose wrath left me as limp as a non
I've been battered and bruised by profane abuse
From the lips of a big traffic cop
I've been called dirty names by the thousand
By the neighbors whom I have aroused
By the carrels I sing with the milkman
When sometimes I ride home with him scoused
I have been bankrupt, ragged and tattered
And without a red cent to my name
And more than one young lady
Has picked me to carry the blame
I have languished in jails and in bread lines

OUR FIGHTING MEN

A Marine told a buddy on Guadalcanal
The army is coming, think of it pal
His Corporal answered him, Allright then
Let's build a nice club house for our fighting men

They can have entertainment and maybe a play
Recreation advisors from the WPA
USO hostesses and movie glamors
For the army gives morale a very high score

One thing said the chow hound, we'll get better chow
Depend on the soldiers th drag in the chow
They will start a PX and have ice cream to no end
Life has to be pleasant for our fighting men

A seabee rolled up and asked what's the scoop
The wagons and cruisers laying off shore
With seeds of destroyers sweeping the bay
Is finally landing today

They dashed up the shore when the boats hit the sand
Steel helmets and bayonets and rifles in hand
A Marine washing clothes asked "you heard of a war"

Shut up said the Sergeant go limber your legs
And swap this Jap helmet for a case of eggs
This barking at the soldiers must come to an end
You must be respectful to our fighting men

Their generals outrank ours so they will take command
New rules and new orders will govern the land
They'll have some MP's to shove us around
When the army takes over it shakes the ground

We can take it says the raiders, it went last long
Till the admirals bellow and we will shove on
And a little later we will land again
To make Bougainville safe for our fighting men.

SHIT ON MAC ARTHUR [Bless 'em All]

They called for the army at Guadalcanal
But General Mac Arthur said no
We have for the reason it isn't the season
The red cross is too far away

They called for the army at Tulagi
But General Mac Arthur said no
It's damp and it's muddy, they'll shoot everybody
Besides there's no U.S.O.

Bless them all, bless them all
Jap bombs are starting to fall
Bless the fighting Marines, who are few
Where is the army, there long over do^y ^{we}

For they say they are now on the way
And relief is now on the way
So hang on Marines though you may fall
Cheer up Marines bless them all

The army landed on Tarawa shores
And lost the airfield it seems
Mac Arthur defeated took heels and retreated
And called for the fighting Marines

They called for the army to land on Cape Gloucester
On D-Day plus thirty you know
But they couldn't land for the Japs were at hand
We'll let the Marines have the show

The army they landed on the Admiralty Isles
And not one nip did they see
The first man to land had Mac Arthur at hand
To award him the prized DSC

Bless them all, bless them all
Not one tin soldier did fall
Bless all the medals that hang from there chests
Humble's the WACS they're the ones who fight best

And we want to get back to the States
But the doggies got all the breaks
Without any fighting their points are in writing
So cheer up Marines Bless them all

The army was considered to land on Iwo Jima shores
For they layed in the shade with a Phillipine maid
And all for the good of the Corps

This time we are landing close to Japan
Okinawa is the name of the place
The army has the good dope, no nips on the beach
But they are bringing Marines just in case
Bless them all, bless them all
The Marines are always on the call
Bless all the doggies who run to the rear
Gung Ho Marines we are glad you are here

For we are saying good, but to them all
When the shit hits the fan we are always called
We do the scrapping while the doggies are napping
So cheer up Marines bless them all.

*****CHINA DUTY*****

China duty they all say is best
Because it's different from all the rest
It's far away and across the sea
That's the place for you and me.
I joined the Corps to get over here
I'll tell you son as I cry in my beer.

This place is lousy, filthy rotten
This is the land that God forgot
Sure there's sights strange and new
But a hell of a lot of good it's doing you
It's cold as a feather in the winter time
And dustier than hell when the sun don't shine
You sink up to your knees in slimy mud.

Guard duty sure every other day
One day of school and one day of play
On the look out for chinks we are supposed to be
But the person we watch for is the O. D.

Communists here and Nationalists there
These lousy chinks sure get in your hair
They run around like they own the place
And cause a Marine sometimes to lose face

They pat your back and say Ding Hao
The filthy bastards steal your chow
Megwa Ding Hao they say to you
Get him Mac he stole your shoes

They steal things from you large or small
Lock up your gear they'll steal it all
Liberty call we like to hear
Into town we dash to slop up some beer

Your buddie you don't have to follow
You'll see him later at the "Silver Dollar"
I guess it sounds like a lot of fun
But you'll pay for it Mac (Example one)

Blackie was this lads name
What happened to him was really a shame
A sad day awaits when he leaves China shore
He's going to the States, yeh to clean out his bore

He is not the first and he wont be the last
When a Goony asks him push push Joe, Hightail it
Let them call you what they please
But its the only way to stay clear of disease

Cholera Plague and plenty of V. D.
Don't do it Mac. Don't do it Please
Stay out of China if you possibly can
You'll be a lot better off by gosh than I am

To ride in a rick-shaw does seem like fun
That is till you ride in one
They're tough as hell

This place is lousy, filthy rotten
This is the land that God forgot
Sure there's sights strange and new
But a hell of a lot of good it's doing you
It's cold as a feever in the winter time
And dustier than hell when the sun don't shine
You sink up to your knees in slimy mud.

Guard duty sure every other day
One day of school and one day of play
On the look out for chinks we are supposed to be
But the person we watch for is the O. D.

These lousy chinks sure get in your hair

Don't do it mac. Don't do it Please
Stay out of China if you possibly can
You'll be a lot better off by gosh than I am

To ride in a rickshaw does seem like fun
That is still you ride in one
They're tough as hell, bumpy and slow
And you can't tell the driver which way to go

To throw a good drunk it doesn't cost much
And it's easy as hell to get in Dutch
Believe me brother I'm not kidding you
If you don't believe me (Example two)

Twas the night before Christmas when this took place
If you don't believe me ask a guy named Lace.
Drunker than an Irishman he happened to be
The scene of destruction, Hotel number three

He put his fist through some panes of glass
And at this minor damage he started to laugh
But the Christmas tree at the end of the hall
Is really the cause of his down fall

He stood beside it and the tree then fell
Mac looked amazed and said what the hell
And for the next thirty days he stayed in the brig
He tried to make out just what he did

The people are filthy and so indiscreet
They chew old garlic and eat dog meat
Transportation in China is very bad
You'd think that the rickshaw is all they had

Take heed fellows from a guy who knows
Just what it's like on China shores
Pick out a rock and serve your time there
At least by god you can breathe fresh air

Listen boots and state side Joe's
Learn your lesson from a guy who knows
Get away from China as far as you can
Cause if you don't you'll be a sad man

For China I can't seem to care
Maybe it's because I have had my share
Yes sir fellows you'll hear all about it
When the west coast I do hit.

MY SISTER'S FRIEND

One warm day in June when I was home, I was sitting out in the front lawn, when I saw my sister and her friend coming up the road. When they came up to me, my sister said "Bill I want you to meet Lil". We walked for awhile and I couldn't get my eyes off her. She had such large titties, and her ass was so round. One time she walked in front of me and she shook her ass in my face and winked at me. After we sat there and talked for awhile sis asked me if I would like to go swimming with them and I said yes. As the river where we went swimming was way out in the woods from the house I thought I might get the chance to fuck her if I went with them. As we walked along the path on the way out to the river, Lil reached over and took me by the hand. We walked all the way out to the river holding hands. When we got out there the girls went over in some brush to get in there bathing suits. I watched them till they were out of sight. We swam for awhile then Lil said we should get out on the bank and get a dun-ten, so we got out of the water and layed down on the bank. Lil came up and layed down on my arm. We layed there for awhile talking when Lil said sis was asleep. Then we got up and moved back in the shade and layed down. Lil got as close to as she could and I put my arms around her and kissed her. We layed there for awhile hugging and kissing each other, when by accident I untied the top part of her bathing suit and it came off. I said I was very sorry and started to put it back, when she said thats all right. You don't have to put it back if you don't want to. So I said I wouldn't I layed her over on her back and put one tit in my hand and the other one in my mouth. I did this for awhile then I let my hand slip down to her cunt, she just gave a sigh and layed back. After a few minutes I asked her to take off the bottom of her suit. I will if you take off yours, so I did. After we were both naked we layed back down and started playing with each other. And when she put her hand on my prick I thought the top of my head would blow off. I asked her if I could screw her and she said she wasn't ready yet and besides you can't get that big thing in me. My prick was about nine inches long. After a few more minutes I asked her again and she said yes. But please honey take it easy so I said I would. I layed her down on her back and pulled her legs apart and got in between them. She took my prick in her hand and put the head of it to the lips of her hot pussy. I gave a small shove and sent about three inches up her belly. She gave a groan and bit her lip. I layed there till it had stopped hurting her and she said give me some more. I gave another shove and sent it into my balls. We layed there for awhile and she put her legs around my back and started to move her ass up and down. I did the same. Every time I would give a shove she would meet me and our ass holes would kiss each other. We fucked two times that day then got up and woke sis up and told her it was time to go home. Lil asked me to come over to her house the next night so I said I would. As Lil and her mother lived alone I thought I might get some more ass. Lil's father died when she was a kid and she didn't have any brothers or sisters. When we got back to the house that night mother asked

us if we had a good time. Lil looked over at me and said yes a very good time. I went to bed that night dreaming of Lil. I just couldn't wait till the next day. When I got up the next morning mother asked me what I was going to do today. I told her I was going going to see one of my buddies and that I might stay all night with him. I left home about five that night for Lil's. When I got there they were just eating supper. I helped Lil wash the dishes while her mother read the paper. About nine Lil's mother asked her to go make up the beds. While Lil was gone her mother came over to me and sat down on my lap. She had on a night gown and it was open around the top and I could see her big juicy tits hanging out of her gown. She asked me to stay all night with them and naturally I said I would. I had one of her tits in my hand when we heard Lil coming back. She turned up and sat back in her chair. When Lil came in and said she had the beds made up her mother said she was going to bed as it was late. After she had gone Lil showed me my room and said she would be back in a minute. I gave her a kiss and she left the room. I layed there waiting for her to come back when I heard someone open the door and come in. It was Lil's mother. She came over and got in bed with me. I told her I was naked and I told her I was she said I was. I guess you wonder why I am here in bed with you. Well I am here with you. I haven't been fucked since my husband died first of all and I am really hard up. So I layed her on her back and took her dick in her hand and started it in. When she put her legs on my back and her finger in my ass I thought I would go on for a good fucking that night and I will never forget it. We had just got through with our first piece when Lil came into the room naked and got in bed with me. She didn't know at first that her mother was in bed with me. Her mother said Lil you will have to learn some time so it might as well be now. So I got on Lil and gave her a good fucking. I fucked them each three times that night before I went to sleep. Now I get all the fucking I want all the time. AND DO I MEAN GOOD FUCKING.

THE END

A TRUE WIDOW

On my husband's death a year ago I promised that I would never give myself to another man. And to this day I have never broken my promise. On my birthday a friend of mine gave me a St Bernard dog to keep me company. He was a very large dog and stood easily to my waist.

One day as I prepared to take a bath I had just disrobed when I heard the fire sirens so I knelt on my hands and knees and looked out of the window. I heard a noise behind me and I thought of it as I knew it was Paul my dog. Suddenly I realized he was sniffing my pussy and the next thing I knew he was licking it. Oh I will never know the joy it gave me. And still does. I was terribly embarrassed and my thoughts were to get up. But the sensation became so intense that I had no will power whatsoever. I thought I would faint. I made a terrible attempt to get away from him. But with little success. Before I knew it he had his hind legs around my waist. I could feel him jabbing at the lips of my pussy with his prick. It made me so hot that I decided to let him screw me. So I stopped struggling and reached back and guided his prick in. Oh it was so big, so much bigger than my husband's had been. I wondered if I could take it all. But 12 months without any, I just couldn't stop. Such a sensation I had never imagined possible. With his big furry body tickling my ass and his long dick in and out so fast that I thought I was going to faint. Finally with sheer ecstasy I fainted. When I came too I was in the prone position laying on the floor. With my legs apart and Paul licking the come out of my pussy I noticed his prick was as hard as a base ball bat. I got up and he followed me into the bed room. I layed on my back and propped my ass up with some pillows so I would be high enough for him to fuck me with ease and so I could get all the pleasure there was to be had in that long prick of his. It was such a beautiful prick. But before getting on top of me he started lapping my pussy and being on the edge of my pillow his long gorgeous tongue would go in all the way. Then he lapped up the cream and started up on me so he could screw the living hellright out of me.

He climbed in this time and he was educated he knew where my hole was and with his first jab sank it into the hilt. I could feel the very large knot on the end of his prick expanding in me. I thought it was going to explode. Oh it lubricated my pussy wonderfully surely it was a fucking Cleopatra would envy. Paul had remarkable constitution. I knew he had come at least three loads of his luscious thick burning cream before I had finally fainted from his wonderful screwing and I knew I had come many times also.

When I woke up the next morning my ass was still on the pillows. I sat up on the edge of the bed and started to think of the night before. While I was sitting there without anything on Paul came walking into the bed room and immediately started spreading my legs apart with his nose and started lapping my pussy. After awhile of this I wanted him to go faster but I didn't know how to go about it. Then all of a sudden I got a damn good idea of how to go about it. The all of which was a hand full of raw hamburger which I put in my throbbing cunt. Then I went back to the bed and called the dog over and propped my ass up on the pillows again. Paul then started to lick my pussy and started to go after the raw meat. His tongue started to go faster and faster and further into my snatch. Finally after I had come about

three times he had reached the end of the raw hamburger and it felt like his tongue was way up in my belly. Then with that great tongue in me I started to scream. I screamed so loud that I woke up the girl next door. Paul put one paw on each of my tits playfully and I yelled with pleasure. I noticed the door open and the girl next door came in. But I was in no mood to stop. It felt so good that I wish I could have had it in me forever. She seemed to be hypnotized by what she saw. I told her I was sorry that she caught me doing such a thing but it was the most wonderful thing that ever happened to me. She didn't say a word just stood there and stared at me. Suddenly before she could stop him Paul put his head up under her dress, her with no pants on and he started to lick her love nest with his burning tongue. She tried to push him away but the pleasure was too much for her. Then she pushed him away from her and called me over and asked me to unhook the back of her dress. While I was unhooking the back of her dress she raised her skirt and let Paul lick her snatch. When I got her dress unhooked she took off the rest of her clothes. Then moved over to the bed.

All the time Paul had his tongue in her belly, she asked me to take off her shoes and stockings. As I knelt down Paul moved away and I saw the most beautiful pussy that I have ever or ever hope to see. When I had her shoes and stockings off I noticed Paul's large dick staring me in the face. Oh it looked so nice, that I put my hands on it and started to play with it. From the joy that my hand was giving him he started his tongue faster and faster in my girl friend's pussy. After he came once I went in the bath room and washed my hands. When I came back from the bath room, my girl friend was kneeling on the floor with her ass up in the air as high as she could get and Paul cornholing her for all he was worth. From watching them I started to get hot as hell so I started finger fucking myself. When she saw me doing this she called me over to her. I was then standing facing her and Paul. Paul was still fucking her in the ass when she told me to sit down. I sat down not knowing what she was doing. I thought she just wanted to look at my snatch while Paul was cornholing her. When I sat down she put her arm around my waist and pulled me up to her, then she started kissing me all over my belly, and between my legs. Then she started to kiss me all over my snatch. Then her lovely red tongue came out to lick my cunt. Oh the joy I held for her you'll never know, it was just plain heaven, her licking my pussy like that. Then she started going faster and deeper. By that time I was nearly frantic with pleasure. I grabbed her by the hair and started to pull her deeper and deeper into my flaming love nest. When I came I felt her dig her lips into my pussy and draw all my rich heavy love juice. Then I told her to let me lay on the bed and have Paul awhile. It took me no time at all to arrange the pillows and get into position for Paul's enormous tool. Then Paul climbed upon me and sank his huge shaft into my quivering snatch. I called my girl friend over and told her to kneel over me, then I pushed her back a little so Paul could lick around her snatch. Then I realized her tits were right over my eyes. I started to suck on her tits with great haste. She had an especially beautiful body and her tits were built to perfection. I then began to bite them playfully. Between my biting her tits and Paul licking her quiff, she was swooning with ecstasy. She gave a jerk and her burning fluid shot all over my tits. She fell forward, overcome with joy in such a position that her womb was right over my face and my beard was bare to Paul, who was still transporting me into heaven. Oh the joy the pleasure, the beauty of it all. Paul's tool was piercing the very depths of my inner sanctum. Then he gave a thrust forth of a tremendous quantity of the most luscious spunk I have ever seen.....

I guess I was just shot in the ass after that little excursion because as soon as I had extracted all his sperm, he flopped down on the floor, with our mingled cream dripping out of my snatch and on his ass. In the meantime, Colon, had recovered from her come of sheer joy. She saw my quivering cove box and her lovely mouth parted. She pulled herself to me and placed her swollen lips on the wet lips of my cunt. Her tongue and her lips ran all over my quivering snatch. She sank her tongue deep inside of me, reaching the very corner of my beseeching hole. I couldn't help from pushing up in her face. I gave a thrust and at the same time I came with a great force of sweet burning desire.

This is the tale of only one of many days that Paul has give Colon, and I many hours of heavenly bliss.

THE YOUNG MAN FROM TRENT.

There was a young man from trent,
Whose pecker was so long that it bent,
To save him the trouble ,
He showed it in double,
And instead of coming, he went.

Twinkle, twinkle, little star,
we went for a ride, in a little car,
what we did, I aint admitten.,
what I am knitten
Aint for Britian.

Here I stand, trying to Piss,
Thinking of the girl that give monthis,

Headless!

I have always lived in the country until a few months ago, and I have never learned the difference between a man and a woman. Mother is a widow 36, and my father died when I was 10. The subject of sex had never been brought up at home. Until my sister who is 18 returned home from boarding school. One evening shortly after her return we were all seated in the living room. When my sister asked mother why she had never married again. Mother said she was ignorant as a new baby as what they were talking about, so I remained still as if I was asleep. Mother wanted to know why sis asked such a question. Sis laughed and asked if father hurt her. Mother looked at me and evidently thought I was asleep. She turned to sis and said his thing was too big, and asked sis what she knew about such things. Sister said that she only knew what the girls at school had talked about, but mother seemed suspicious and looked over at me to see if I was still dosing. She told sister to remove her clothes and let her look at her, laughingly sis undressed and told mother she had been milked by some of the girls at school and liked it. This was the first time that I ever knew that a girl was different from a boy. Sis had a bunch of hair where I had a long red shaft. Mother was fingering around that hair and I noticed my shaft was rising and swelling. My pants lifted in front. Sister caught me peeping before I could close my eyes. When I opened them again she was looking at me and winked. I didn't know what she meant so I kept still. Mother said that she guessed that sis hadn't had any thing to do with men, so sister dressed again; when mother went out of the room into the kitchen, and sis whispered to me to come to her room tonight and she would show me something. When mother returned she shook me and told me to go to bed. All of our rooms joined with a door between them. Both mother's and sister's doors opened into my room, as it was the center room, I heard them both go to their rooms and I thought I would wait a while before going into sister's room. I layed there for an hour and decided that Mother was asleep, then the door opened between mine and mother's room. I kept pretending to be asleep, mother came and slipped into bed with me putting soft hands on my naked body and snuggling very close. I was wondering what she was going to do when she let her soft hands slip down, and cross my shaft, I heard her murmur something about it being as big as dad's, and I noticed it was rising again. I moved slightly as if in a restless sleep, and turned over to rest on my back. Still pretending to be asleep, she took one of my hands and gently placed it on her firm round breast, then separating one of my fingers she pushed it in her tight hole. My shaft became as hard as a rock, and as hot as fire. I heard her softly murmur "Sweet boy". Then she removed my hands and whispered "Are you asleep?" I remained silent. Then she gently raised herself on one knee, and threw her shaply thigh over my body. Then she gently took my shaft in her hands and slowly guided it until the head rested in the lips of the hole where my fingers had previously been. Then she sat down slowly forcing my thing into her warm slit. She murmured something about heaven, and began to slowly raise herself up and down. This felt so good that I couldn't lay still any longer, but began to raise myself to meet her when she started down. She murmured "sweet boy" and gently took both of my hands and placed them on her soft, firm, white breasts and whispered to me to squeeze them. Just then the door opened to sister's room, and she came in.

Mother stopped her gentle motion and seemed at a loss for what to do. Presently she blurted out that sisters talk early in the evening had made her hot, so she had to do something. I was anxious to go on, so I shoved myself up to meet her. She also resumed in the motion, and soon something inside of me seemed to burst, I can't describe the soothing feeling. Now sis eagerly grabbed my shaft and began shoving up and down so it was standing up again. She wanted to give me a real treat. Mother told sis to go back to her room, but she refused, saying she wanted to have a little of the same as mother. I was wondering what she meant to do, when she got into bed, her face turned to my feet, but I was soon to find out. Having reversed her self, she crawled over me in such a way that my head was between her legs and I could look down and see her softly kissing the red head of my shaft. Next she started to lick it with her soft tongue as she would lick on an ice cream cone. Then as this sensation such as I had never experienced before started I slipped two fingers into the soft hole between her legs and gently moved it in and out. In a few minutes the soft walls of her pussy grew hot and all of a sudden something shot out of her all over my hands and even dropped in my face as I felt myself coming I put both hands on my sister head and shoved her down on it until it was all the way down her throat. When I started to come she sucked all the harder and sucking with all her might. Then I came and she swallowed it every drop, then she layed down beside me and started talking about it. Mother had never heard of milking so sister told how it was done and that we could all do it at one time. They both played with my shaft till it got hard again. Then we decided to try it sisters way, I lay on one side of the bed, Mother stretched across the bed and took my shaft in her mouth. Sis reversed her self, and I slipped my tongue inside of her pussy and moved it around until my tongue came in contact with something inside of her nest, I wrapped my tongue around it and sucked all the harder. She began to wriggle with delight, mother got so excited that she started working in and out to meet her motions. All at once I felt it break lose and I shot my load in mothers mouth, she had to swallow it to keep from choking. I felt her wiggle her ass and knew she was coming too. As sis was still going strong on her. Finally my thing got harder and seemed longer than ever. Sis got up and went to the dresser and got a jar of Vaseline, some of which she put on the head of my tool and some on her twat. Then she layed down and I was afraid that I couldn't get my thing in her, mother was asked to guide my thing in. As sis pulled me down on her mother put the head of my thing in her and it felt as if it was sticking into fire. Sis was so hot mother told me to take it easy, and when I started to slip it in sis moaned and gritted her teeth and she shoved against me with all her might then mother told me to give a quick shove, and I did. It went clear up to the balls. When I gave a lunge sis gave such a sound that I thought I had hurt her and I started to take it out, but before I got it half way out sis grabbed my ass and pulled me down on her. I started to work up and down like mother and I had done before, And sister started to meet every motion with every stroke, I felt it swell and I thought it would last for ever, sis asked me to kiss her and when I put my lips to hers I felt her tongue slip into my mouth, and her arms went around my neck and held me tight it was so good I never wanted it to end. Soon both of us came, and then we just layed ther for about an hour.

PAGE THREE

Mother soon got tired and went to her room. Sis asked me to do it again, and we did. When we got through sis said that she could not do it again tonight as she was so weak.

But she made me promise to come to her room every night after mother had gone to bed, and I promised that I would do it. Well I guess that is all till we meet again, Good luck, good suckin', and good fuckin'.

TOMMIE TUCKER

I had eighteen bottles of whiskey in my cellar and was told by my wife to empty them down the sink or else----- So I said I would proceed with the unpleasant task. I withdrew the cork from the first bottle and poured the contents down the sink. I with the exception of one glass which I drank. I then extracted the cork from the second bottle and did likewise with it, with the exception of one glass that I drank. I pulled the cork from the third bottle and poured the whiskey down the sink, which I drank. I pulled the fourth bottle down the sink and poured the bottle down the glass, which I drank. I pulled the bottle from the cork of the next and drank on sink of it, and threw the rest down the glass. I pulled the sink out of the next glass and poured the cork down the next bottle. Then I corked the sink with the glass, bottled the drink and drank the pour. When I had everything emptied I steadied the house with one hand, counted the glass, corks, bottles and sinks with the other which were twenty nine I'm not under affluence of inkohl as one thinkle peep I am I'm not as half as drunk as you might drink. HORNY LOU

When I was at the tender age of sixteen, the boys and girls of the school were afraid to associate with me. My father had threatened to shoot any boy that was caught out with me, so this frightened all the boys away. Whenever I chanced to pass some of the girls in the hall, or happened on them while they were engaged in a conversation, they suddenly would change the subject. Once in a while I would be fortunate enough to know some things of life. I was quite ignorant for my mother had always kept life a secret where I was concerned. That is why I was so anxious to be included in the crowd of young people that ran around together. There was one of the girls that belonged to the circle who seemed to be a little better than the rest of the girls as I knew that if I was going to get in the circle, it would be through her. When I brought up the subject of the party of the circle one day while talking to her she tried to change the subject, but by this time I was determined to get in on their parties, so I was persistent. Finally, she agreed to help me if ever one of the girls dropped out. After what seemed ages she told me that one of the girls had moved to another town, and that the girls agreed to accept me into the circle. She told me that I would be invited the following Monday which gave me nearly a week to figure out how to get away from the folks. I told them that I was going to a girls birthday party and they believed me. I never did think Monday would come, yet the day came and I was in a muddle all day. Finally the time came for the meeting of the circle. The meeting of the circle was held at a young widow, Mrs. Summers. Mrs. Summers wasn't very old, and believed in staying young. That is why she held the parties once a week for the circle. When I arrived at the party, the other girls were already there. After I had been introduced to Mrs. Summers, we all went into sitting room where sewing was handed each of the girls. We all sat in a circle, chairs were all facing the wall except for a curtained door way. We all sat sewing and talking for ten minutes or more when Mrs. Summers left the room. When she returned, she told us to put our sewing away as she had a surprise for us. She told us to sit quite, then she turned off the lights. There was a rustling noise from the curtain, and someone had hold of me. Whoever it was, had their hand up my dress and was playing with my pussy. As I never wore panties it was very easy for them. First they rubbed their hand up and down then they put a finger in it and by this time my twat was burning up. Then the person that held me whispered and I knew it was a boy. He told me to lay on the floor and I did as he said. He pulled my dress up to my waist, then I felt something round and hard press against my belly. I suppose the boy thought he had it in my twat for he whispered for me to wiggle my ass as we didn't have much time. I started wiggling my ass and after a moment of this I felt something warm and sticky down my belly then he got off of me. The lights were turned on and the boys laying on the floor were five other blushing girls besides myself. They were in all sorts of positions, some had their feet up while others were just laid there hugging their breast. I looked up and there were six boys, all of them were laying by the rosy cheeked girls on the floor. I jumped up and straightened my dress. Mrs. Summers told everyone to be very quiet as she had something to tell them. She told them there was a new member to be initiated into the circle, everyone in the room clapped their hands at the announcement so I was sure that I was going to have the initiation or not, but since I had already started I couldn't back out. They told me to undress after I had done that they told me to lie on the couch that had been placed in the center of the room. Everyone in the room stripped.

One of the boys ~~on~~ on his knees at the end of the couch and ran his tongue up my burning twat, while one boy started to fuck Mrs. Summers, when the boy fucking her was about to come he jerked his cock out of her cunt and stuck it in my mouth so that I got all his love juice in my mouth. The boy who was eating me was giving me the greatest thrill of my life for after he ran his tongue in my ass and out my twat a few times it felt as if I wanted to shit and piss at the same time. After three boys and fucked Mrs. Summers without getting her going off she was so hot that she couldn't stand it any longer. When the next boy tried to mount her, she pushed him away and put her cunt over my face. She moved it around so that I had to open my mouth. All I could do was start lapping. When she came she shot such a load that I couldn't catch it all in my mouth so it ran down my cheek I can't say that I liked to rough treatment but I really liked the taste of the warm cunt. After I drank the juice of the six boys I was so weak I could hardly see each of them had lapped my pussy. Then the boys lined up with the girls behind them the girls rubbed their bare bodies against that of the boys and played with their cocks. It wasn't long before six lines of cocker stood up stiffer than broomsticks. The girls rubbed the boys fore-skins back and forth till the boys came shooting their love juice from the top of my head to the bottom of my feet. When they had finished the girls were so hot they couldn't stand it any longer so they laid down on the floor and the boys laid down with them. Ass wiggled all over the floor. I hadn't been fucked that night. I went home a virgin. My mother had been ill quite some time so it was one of my duties to get and prepare the meals for my father being a farmer he got up so early that I never put on more than was necessary. I was frying some eggs when I looked up to see my father standing in the doorway looking the way no father should be looking at his daughter, I glanced down at my dress where I noticed his eyes were concentrating and found that my dress had gaped open. It was one of those wrap around affairs. And it was exposing the whole front of my body as far as my cunt. I reached for the dress to close the gap but before I could close it my father had reached my side and grabbed me around the waist. He lifted me to the corner of the table. As he pulled the front of my dress open he unbuttoned the front of his pants and pulled his cock out. His cock was much bigger than the boys at the sewing and he didn't try to shove it in my little hole. Instead he laid it down by my twat and started playing with my tits and kissed me till I was so hot I couldn't stand it. I spread my legs apart and started his cock into my twat. It went in alright for a ways when it hit my maiden head. He stopped for a second, braced his feet and gave a shove and the whole cock was pushed up in my belly. I thought that he had gone through me and that his cock was going out of my ass. The breaking of my maiden head has pained me for a second, but the agony wasn't as great as the ecstasy that I felt and my father kept pushing his cock back and forth in my cunt. We both came at the same time, as long as I live I shall never forget the thrill that had at that time as I felt the flow of his love juice meeting the flow of mine. After that my father sat down facing me putting his cock in my twat. The time I kept shoving my ass around till I felt the hardening of his cock. Then we fucked again. Father went to the field to do his work for the day. He told mother that he was going to move to the extra room, he was afraid that he would get hot nuts and try to fuck her. So this fixed it so that my father and I could sleep together every night. After two months of this I grew plumper while father grew thinner. Now he never used a rubber and I knew nothing of birth control. He would fuck until he was ready to come then he would jerk his cock out and put it into my mouth but one night I clamped my legs so tight that he couldn't get loose. I wanted the thrill of the time of a virgin.

same time. The result was that I became pregnant. My father told me to go on vacation as he didn't want a scandal. I was away ten months and during that time I hadn't had a piece in months, so I really had hot pants. I rode thru Pullman car back to my home. I had the lower berth while a young man had the upper during the night I got up to go to the toilet, and on my return the train gave a sudden jerk and threw me through the curtains of the upper berth. When my head went through the curtain I was stunned for a moment, as I started to jerk my head out of the berth I noticed that the man didn't have any clothes on. I looked at his cock and my mouth watered, it was the largest cock I had ever seen. The man saw me and placed his hands around my neck and started my head toward that cock. I put my lips around the head of his cock when I had sucked for awhile he started to come, when he grabbed me behind the head and shoved as much cock as he could down my throat. He was so strong I couldn't break away. When he finally turned me loose all I could do is fall in the aisle fighting for my breath. When I got off the train I found my parents waiting for me. I decided to teach school, I put in my application to teach the 9th Grade. I got the job, and so I started another part of my career. The boys were rather large for their age as they were farmers. I noticed the boys were cysing me when I sat at my desk. I knew that they were trying to see between my legs I would spread them apart so they could see my twat, I liked to see them squirm. I knew their cocks got stiff. One afternoon I dismissed the class but two boys stayed behind, I really wanted fucking. The boys then mounted me the night before was the first to fuck me. When the other boys finished the first one was ready to go again. I told him I was gettin' but he got on just the same. This time he really fucked me, he throw, my legs in the air and plowed his pecker in the hole. When finished I was so cwak all I could do was lay there with my legs spread apart and my dress up to my waist. The boys walked out leaving me lying there on the floor with cum running down my legs. I was so weak I couldn't get up to wash it off. I laid there as they had left me. They had left the door open and now as I looked up I saw two negroes standing in the doorway looking at me. I tried to get to my feet but couldn't. One of the negroes took his cock out of his pants. I started to scream but before I could the negro put his hand over my mouth and he had already started to mount me. As he started to shove his cock into me I thought I would pass out. He put the whole thing in with one lunge. It seems to go all the way thru me. Somehow I lived thru it. When he was finished the other negro was ready to go. I thought if I ever lived thru this I would never get hot pants again. When the second negro had finished fucking me the first one was ready to go again. He got off and stood over my mouth and I knew he was going to

make me suck his cock. I didn't want to so I clamped my mouth as tight as I could. He got hold of my jaws and started to squeeze as hard as he could he finally got my mouth open. All I could do was start suckin' for I was too weak to resist. When the negro got his nutts off they were ready to go. After they had gone I laid there and thought of the things I had done since I had become a member of the sewing circle. So girls if you wish to be happy don't fuck everytingg that comes along as there isn't any happiness when you are worn out and no one but negroes will have you.

TAKE HEED

A FRIEND.

One morning we went for picnic. We went to the boat and when we got in Mildred sat on the back. She was dressed in her sport clothes and a short dress. After we were a little ways up the river she moved in such a position that I could see a few inches above her knees. I noticed this and could not take my eyes off and then my cock, came up to attention. She began to straighten her dress out and held it for a moment and I could see her pussy. I rowed for shore and tied the boat to a tree. For a while I laid down with my head on her lap but I soon sat up and kissed her. I ran my hands up her waist and felt her boobies. I unbuttoned her blouse and boobies into view. I began to kiss them, she seemed to be sleeping and I felt I couldn't stand the temptation any longer. So reaching down I felt her dress and pulled it up until I saw her pussy. I put my hand on her pussy and as I did she said, Darling, let me have it. So I laid on her and kissed her pussy and played with it with my fingers. I set her wild, she kept begging for it and playing with my cock, for she had unbuttoned my pants. I couldn't stand it any longer, so I got up and let my pants down and my cock in her hand's I crawled between her legs. She became so hot her cunt was wet and it went in easy. We worked for a few minutes when the love juice came. She drew her legs tightly around me so that I thought my back would break.

I woke up and found her playing with my cock and it began to get hard again. I got up and sat on the stump and Mildred sat a straddle of my legs putting my cock in her cunt. She did all the work in this position and all I did was kiss her titties. When we finished we started for home.

When Lola came out of the toilet one morning I was in bed. I spoke to her and asked her if she couldn't sleep. She said yes she was too hot to sleep. She came over to my bed and sat down by me, I put my arms around her and kissed her. My cock was as hard as a rod and she didn't seem to see it. I kissed her again and put my hands on her tits. I held her close to me and let the other hand slip up her leg to her pussy. Then she said John if you don't quit I am going to call your mother. I didn't stop I ran my hand in her pussy again.

I had her so hot she grabbed my cock and squeezed it I put a pillow under her ass so she would get it all this time. So I was just slipping it in her cunt when Mother came in and caught us. As I rolled off Lola in Mother sent Lola out of the room. She put her arms around me and gave me a hug, she held me so close that

my cock laid on her leg. This made me almost wild she then put her hand down on my cock. She threw back her gown revealing to me her lovely pussy. Just as she was putting my cock in her pussy Lola came in. She and Mother started a argument, I told Lola to get to where her cunt would be over my face, I started kissing her cunt, Lola came first and I sucked her dry. Then I was free to enjoy my fuckkkk with Mother. We came at the same time. We all slept together after that. That was the only bed used in the house while I was there. They had no sex worn about that in a few days I had to go away for recuperation.

THE STORY OF THE FARMS SON

Once there were two brothers, Sons of a rich farmer, When they became 18 Yrs of age their father gave them ten Turkeys each, and told them to go to town and sell them, and spend the money on the money. CONFESSION OF A MARIETTE WOMAN

My story starts at a party in themonth Sofmay. It was given by my parents, at home. I was very tired and so I went to my bed-room to sleep. As you will see I slept with Mom and Dad. I found that it was impossible for me to sleep with the clatter of glasses and dancing. That night after the party was over Mom and Dad came up to sleep and I was awake, and the first thing I saw was Mother taking off her clothes. She stood there in the room with the light shining on her naked body. Father then took off his clothes and what I saw hanging between his legs made me open my eyes wide. I wondered at that time if all men had the same thing between their legs.

My hand went down to my cunt when I saw him put his thing in Mems hole. I was wondering what Dad was going to do with that long thing in Mems cunt. By that time my fingers were in my cunt and it felt so good. I watched Mom and Dad rolling in circles and moaning at the same time. I moved my fingers in my cunt and it felt so good. I never felt so good in all my life. Then Mother grabbed dad around the neck and their hips gradually stopped their motion. They laid there in a tight embrace with Dads cock still in her cunt. Dad with his thick white creamy stuff. He got on Mom again and put it in her cunt. I was laying there with my head turned upwards all the time, when Dad pulled his prick out I grabbed it and started sucking the head of it while Mother put her tongue in my cunt and lick it with all she had. When Dad came I swallowed all he gave me. It tasted better than cream. Mother told me to suck her cunt because she wanted the feeling. Then mother told me to suck her cunt again. Then mom told dad he had to fuck me. He got between my legs and shoved all his prick into my cunt and all of a sudden I felt as if my hole was being torn apart. I nearly fainted. Mother told Dad that our daughter's cherry was broken and he had to take

it easy next time. Dad then took it easy when he had it all in my hole, he started to move his ass up and down. I found myself moving against him at the right time and meeting every thrust. By this time I felt like I was floating on air. OH! Mom that was good. Then I shot my first load of cream. That was the best feeling I ever had. Then Mother said for me to put my tongue in her cunt. I put my tongue in her cunt then Mother told Dad's cock and put it in her mouth. Dad then put his tongue in my cunt, and we all went to sleep that way. We had a maid that used to do all the work in the house, so on day Mother locked herself in the room with all of us and we started sucking each others cunts until we came home. The sight of her naked body was too much for me. I parted the hair around it and started licking it. We sucked each other until we were so weak Dad couldn't suck us. Until I was 177 I also with Dads cock in my mouth.

Then I went away to school. During my first week I met a Marine. Then we got married. After my husband loved me up he didn't know what to do next. His prick measured a good nine inches, and the poor dope didn't know how to use it. When my husband went to sleep I got up and went to Mothers room. They were sucking and fucking in the right manner and with mu passion up to the highest point. I couldn't hold but jump in the bed with them as Dad was giving Mom his last load. I sucked Mems cunt dry. In the position my cunt was an easy target for dad to jump at it. I got all the fucking I wanted that night from Dad. Then Dad started licking Mothers cunt. He was the first man to fuck me and lap lap at the same time.

Then came my husband's call to duty in Hawaii. On boat I met a man but he refused to suck my cunt although he was a wonderful fucker. We reached the Islands and I wore my Brasces very tight as the Marines could see the imprint of my cunt and the cradle of my ass. I never wore brassiere because I wanted the Marines to take a second look at me. I think they knew I was aching for a good fuck, but I played hard to get. but some of them made it and it was all right. Later we hired Frank the striker to take care of the horses. I would have given him anything he wanted if he would fuck me, but first he had no sense. My chances were when my husband took me to the beach.

Then I went away to school. During my first week I met a Mari c. Then we got married. After my husband loved me up he didnt know what to do next. His prick measured a good nine inches, and the poor dope didnt know how to use it. When my husband went to sleep I got up and went to Mothers room. They were sucking and fucking in the right manner and with much passion up to the highest point I couldnt hold but jump in the bed with them as Dad was giving Mom his last load. Then came my husbands call to duty in Hawaii. On boat I met a man but he refused to suck my cunt although he was a wonderful fucker. We reached the Islands and I wore my Dresses very tight as the Marines could see the imprint of my cunt and the crease of my ass. I never wore brassiere because I wanted the Marines to take a second look at me. I think they know I was asking for a good fuck, but I played hard to get. but some of them made it and it was all right. Later we hired Frank the striker to take care of the horses. I would have given him anything he wanted if he would fuck me, but first he had no sense. My chances were when my husband to Guam for duty. The morning my husband left I told Frank to get the horses and we would be for a ride. When we returned we were tired and my cunt was wet. I told him to come into the house when he was through with the horses so he could help me take off my boots. He came in with his face all red. The morning was perfect for what I had in mind.

I saw the admiration in his eyes and I knew he would do anything I asked him. I sat down on the edge of the bed and told him to pull off my riding breeches. He did this and looked at them and saw how I had my legs spread apart and my bare cunt within a short distance from his beautiful shaped mouth. I could hardly control myself as I saw what a look he had on his face. I took off my skirt and I couldn't stop myself any longer. He was sitting there smiling at me while I stood there naked before him. I reached down and kissed him. This threw my titties up in the air in front of him. I reached down and gently eased his lips from mine and started to suck on my nipples. When he did this I moved my ass to the edge of the bed until my cunt was within six inches of his mouth. I took his head in my hand and pressed it against my belly. He sucked my belly-button and came as close to my cunt but would not touch it. Then I slipped my hand in his pants and reached for his prick. Then he began to suck my cunt. I almost let the juice flow out when he did that. When two people get each other so hot you can come just as easy as if you were fucking.

I managed to hold back until he had his tongue in my cunt. Then my whole body began to quiver and my lips of my pussy failed. I had to let go. I came so strong that I fell forward letting my titties fall on his back. He began to move to the tongue in my cunt. Then he got on the bed and I climbed on him and got hold of his cock. It was pretty hard to get in my mouth but I finally did with all my earnest. I sucked it then it began to stiffen and I thought that he would choke me.

Then he discharged his load in my mouth. My whole body jerked and quivered as his blood started running out the corners of my mouth. I locked his belly and his prick out of my mouth. Then my passion came up again. I could have died there in his arms. Then he climbed on me and he slid his prick in my waiting pussy. Boy I sure got all the fucking I wanted. And I still do. Any my pussy is all for him.

A LETTER TO ERMA

DEAR ERMA.

It seems to be along time since I left you to live with my folks in the city. I have such an awful experience that I hardly dare to tell you about it. You know George and I were married but it was impossible to let you know of the marriage in time. OH if you only knew how I felt when we were married and I had to sleep with a man. That ought if it shuddered all over me. At least the time came, I now give you brief history of my first night. We were married at three in the afternoon and had supper at five. But I felt as if I couldn't eat anything as I was thinking of the coming night. When I had to lay in the bed with him. You know what to expect when you sleep with a man. We sat up till 11 o'clock and Mother said we had better go to bed. Then came the most fearful moment of my life. George was still laying down on the sofa in the parlor. I wore the night gown you made for me. Well I got in bed. OH, how I felt waiting for him to come to bed. I didn't have to wait long. He came in gave me a kiss and started to undress. I felt ashamed for a man to undress before me for the first time.

He then got into bed with me and clapping me in his arms for the first time. Then he expressed his desire to do something. I knew then the time had come, he ripped off my night gown and placed his joyhammer in the opening of my cunt. He asked me if it hurt and I told him no. He gave another push which sent it further in my burning cunt. You know the time we stole sausage to do it with? I still remember how it felt. He asked me it was not long before I reached my climax. You know the sticky fluid that used to come when we did it with sausage. I kept on hugging him, and I was in heaven. When he pulled his cock out it was soft and red as a beet. I had lost my cherry and my belly and legs was covered with blood and some of his hair was still in my belly.

Erma do wait until you are married. I bet you like it better than sausage.

LOVE

THE END

FRANCIS.
